There is no stage, be it an Open Air or a big ballroom, where the born Frankfurter isn't feeling well and he is one of the few professional entertainers, who provides atmosphere regardless of big or small event.

The Rick Mayfield-shows live from his charm, his contact with the public and his talent as an all-rounder, irrespectively of 20 or 20.000 guests wanting to be entertained.

He has played as warm-up artist for international acts like Roger Chapman or the Puhdys and on many commemorative events years ago. 1994 RICK MAYFIELD made a contract with a successful production team as a solo-artist and produced his debut-album.

On the occasion of the 1200-jubilee of the City Frankfurt/Main, RICK MAYFIELD also participated in the international top-class casted song "FFM 1200" (SONY-MUSIC).

He also remains loyal to the Irish-Pubs, the starting point of the singer and musician in the world of entertainment years ago, although very little time remains for a few appearances there.

Rick Mayfield enlarges his program since 1997 with remarkable acts of great stars of the showbizz: Elvis – Blues Brothers – Sinatra – oldies – country – Santa Claus – Heino – gospel – German music and many more. This means a great variety for the audience.

In early 1999 Rick Mayfield has enlarged his spectrum again: with his two comedy colleagues Arnd Baumbach and Reinhard Ottow he gave birth to the ultimate comedy-music-and-show-program "Extra 3" and 2006 "The Fantastic 2". These programs developed within a year to definitive run away successes in the areas of commemorative and company events. Finest comedy and music – no slapstick – but upper class entertainment.

2000 was a particularly successful year. Amongst others he produced his new Show-CD "Legends Live", a live-album with the best live songs of his show acts like Blues Brothers – Elvis – Oldies – Country – and Sinatra shows, which are still impressive bestsellers today.
A CD, which goes under one's skin.

After an overall successful year 2000 Rick Mayfield was designed the prize winner as the Entertainer of the year 2000 for special media by selected experts.

From 2000 until 2002 Rick Mayfield brought his "comical" sides to perfection with his own comedy animation program for fairs, commemorative and private events.
This program, which can also be booked in combination with his music programs pleased so well that Rick Mayfield was granted with the award special media prize 2002 - area comedy on 10.03.2003.

Rick Mayfield achieved a crazy and successful start into the German carnival/Faschings strongholds with the characters "singing waiter Pierre" and "singing sailor Peter". This program is a mix of a lot of live music, animation, fun and is a inherent part of the parties of a lot of carnival associations between Frankfurt and Mainz, and from Cologne to Berlin.

On his way to become an all-rounder, completely in the style of an "American entertainer", he was honoured for his very special own style with the award special media "Moderation" for his many successful fair, gala and event presentations. Exactly one year later, on 3.3.2008, it was followed by the winning of the prize as a singer in 2007 through the Jury for the special media prize. After a very successful year on many stages in Germany and Europe – "Rick's voice gives creeps when interpreting songs like New York, New York and many others – a special master of his art."

And our track record goes on: the current CD is expected to be released 2009. The producer is no one else than the successful **Pop-music-producer "B-Zet"** (i.e. Laith Al-Deen – "Bilder von Dir") / Schallbau GmbH of Frankfurt. "B-Zet" discovered Rick Mayfield 2008 on one of his successful concerts and offered him spontaneously a joint venture. This **CD with new pop music** will also be finalised in 2009 parallel to the **music-stand-up-comedy show** for **stage and TV**
